

Admin Quick Reference

Need guidance? Open Admin Dashboard → Help & Guide.

Daily operations • safe payment handling • launch hold

START OF DAY

- ☐ Review pending orders and approvals
- ☐ Review Kitchen View and allergy warnings
- ☐ Review catering/personal-chef leads
- ☐ Check payments due and mismatch warnings
- ☐ Check weekly capacity and cutoff timing

PAYMENT SAFETY

- ☐ Square is the official receipt source
- ☐ Pending is a valid temporary state
- ☐ Never create a second charge/refund while one is pending
- ☐ Reconcile website and provider status
- ☐ Review active attempts before resending a link

ORDER / REQUEST SAFETY

- ☐ Confirm items, options, allergens, total, and timing
- ☐ Approval-first means no charge until approval
- ☐ Update status only when real work changes
- ☐ Never mark paid from a customer message alone
- ☐ Do not approve or deny without authority

CONTENT PUBLISHING

- ☐ Proofread names and descriptions
- ☐ Verify prices, options, and allergens
- ☐ Confirm availability / published state
- ☐ Preview public menu, cart, and checkout
- ☐ Keep unsellable content unpublished

Do not repeat the action

If a payment, refund, email, approval, or publish action looks delayed: refresh once, reopen the record, and verify provider/ledger state before trying again.

Common task paths

Task	Path
Approve an order	Orders → View → verify details → Approve or Deny
Prepare today's work	Kitchen View → review warnings → View Order / update status
Review a service lead	Service Requests → filter type/status → View → quote and decision
Publish standard food	Menu Manager → edit/create → verify price and availability → public preview
Publish a weekly plan	Weekly Menu Manager → period → package → offerings → preflight → publish
Reorder gallery	Gallery Manager → choose category → drag cards → Save Order → public preview
Reconcile payments	Payments → warning/attempt → compare ledger with Square → escalate mismatch
Change a role	Role Manager → confirm person → least privilege → save → Audit Log

Launch-hold rule

Payments may remain technically enabled while purchasing is controlled through unpublished menu and weekly content. Existing hosted payment links require a separate review.

Escalate with

Page name • approximate time • relevant record ID • sanitized screenshot • expected result • actions already tried
